David,

Can you give me an update on the status of your comments on our UIC application? As you know, predicated schedules and workloads is challenging in any circumstance. It is harder when the schedule is not defined.

Thank you for your anticipated prompt response to this inquiry.

Becky

Hi Rebecca,

I wanted to let you know the status of our technical review letter. It is not going out today, but we are very close and I fully expect to get the letter to you next week.

I will be sure that the letter is sent electronically to expedite your receipt.

Have a nice weekend.
